## Mark Clark A Stooge for Zionists

General Mark Clark is shown here addressing Jewish soldiers at a Passover service in Italy in 1944. This picture appeared in the book *The Jew in American Life*, by James Waterman Wise, member of some 55 Communist fronts and son of the late radical Rabbi Stephen S. Wise. The book was published by Julian Messner, Inc., in 1946. Although Communist-fronter Wise makes no comments on the photograph, it is obvious that Clark's Jewish background makes him eligible for participation in a Passover service.

With Christianity all over the world being driven underground, the anti-Christian Marxist Jews have divided and set Christians against each other here in the United States by cleverly manipulating the appointment of General Mark Clark as Ambassador to the Vatican.

As informed persons know, the Invisible Government (Zionism) has been directing the New Deal and the Fair Deal since F.D.R. was elected to the presidency. When unpopular appointments such as the above are made, Truman receives the criticism. There is never a mention made of Felix Frankfurter, the Warburgs of Kuhn, Loeb & Co., Bernard Baruch, Rabbi Abba Hillel Silver and others of the Jewish Kehillah which constitutes the Invisible Government. The Kehillah uses men as "spokesmen"; Truman is one of them. In urging the appointment of General Clark, Truman is given the reason that it will influence Catholic votes in the 1952 election.

The appointments of General Mark Clark as Ambassador to the Vatican; Marxist Chester Bowles (of OPA fame) as Ambassador to India, and RED Philip Jessup as representative to the United Nations, are dictated by the Jewish Kehillah which realizes that it dares not place Jews in all key spots, and consequently arranges the appointments of Gentiles whom they have trained or framed into carrying out the Zionist program. In many instances, such as Dean Acheson, the Gentile stooges dare not refuse to carry on.

The Zionists are killing two birds with one stone in forcing Truman to make the appointment of Mark Clark. First, they realize that the public is becoming aware of the fact that Communism is Jewish and, in order to take the attention away from themselves, are pitting Protestants against Catholics as they do the laboring man against employer, white man against black. This is a typical, fundamental Zionist tactic.

Second, and most important, the Zionists would be placing a Zionist spy in the Vatican.

Spokesmen for the President gave as their reason for appointing General Mark Clark, "We want to get the world information which is poured into the Vatican's foreign office just as quickly and just as surely as any other nation . . . because it is the center of world-wide information from every missionary and every bishop." What the Zionists are interested in is securing this information just as they do from Embassies all over the world. In practically every Embassy, Zionists have been placed for just that purpose. They manage, too, to place a Zionist on almost all governmental committees—such as the Un-American Activities Committee—so that the Kehillah (Jewish Secret Government) will know what is going on. Pat Hurley resigned as Ambassador to China saying that the State Department had placed under him men who were giving reports from his office to Moscow before he could get the information to Washington.

If Mark Clark should succeed in the appointment as Ambassador to the Vatican, the world Jewish Kehillah—Communism, Zionism, and "world government"—would have global information before it even reached the Marxist administration in Washington.

Naive Catholic leaders, not realizing that General Mark Clark is a Zionist (regardless of the fact that he is publicized as an Episcopalian—his mother is a Jewess, Rebecca Ezekiel, and his wife is Jewish) are rejoicing at the apparent honor bestowed upon the Catholic church. They do not realize that the same Zionists that tore down crucifixes from religious institutions in the Holy Land, as soon as Zionists took over, are trying to place a Zionist spy in the Vatican as one of their last diplomatic moves to bring the world completely under Jewish "world government."

Numerous publicity releases on Clark are careful to

—(Continued on Page 2)—

## THE WARBURGS—AN AMERICAN SUCCESS STORY

In the 1890s, two young gentlemen leisurely toured Europe, stopping at the fashionable resorts and astonishing the impoverished aristocracy by the amount of money they spent. These were members of the new ruling class of Europe, Paul and Felix Warburg, sons of the powerful Jewish banker M. M. Warburg of Hamburg, German representative of the Rothschilds. After they had completed their Grand Tour, the young gentlemen were employed in Paris and London banking houses and then migrated to America. They played a considerable part in the subsequent history of this country, although they have been extremely reticent about their own importance, and, indeed, have concealed their influence as much as possible.

Felix Warburg arrived in New York in 1898, and became a partner in the banking house of Kuhn, Loeb Company, the American representatives of the Rothschilds. Kuhn, Loeb specialized in railroad properties, and, according to Department of Commerce figures, controlled sixty-four per cent of all railroad mileage in the United States in 1900. This figure dropped to a mere forty-one per cent by 1939. The breakdown of Jewish control of the United States in 1900 was J. P. Morgan and Kuhn, Loeb, ninety-three per cent of American railroad mileage; Speyer & Co., New York real estate and South American minerals; J & W Seligman, sugar and public utilities; August Belmont (Schoenberg), New York subways, and Lazard Freres, gold and silver, specializing in international gold movements. These Jewish banking houses also held important directorships in American heavy industry; Kuhn, Loeb controlling such properties as Western Union, Westinghouse Electric & Manufacturing Co., U. S. Rubber, and International Telephone & Telegraph.

In 1902, Paul Warburg arrived in the United States, and became a partner in Kuhn, Loeb Co. at a salary of five hundred thousand dollars a year. He married Nina Loeb. Brother Felix married Frieda Schiff, the daughter of Jacob Schiff, financier of the Russian Revolution in 1917 and senior partner of Kuhn, Loeb Co. Schiff had put up E. H. Harriman as a front to secure for Kuhn, Loeb the vast Union-Pacific Railroad properties then held by the United States Government. Otto Kahn and Harriman were later prosecuted for this conspiracy and convicted, but the Supreme Court reversed the verdict, proving, then as now, that the Supreme Court never judges against a Jewish banker. Harriman's sons, E. R. and W. A. Harriman, have been prominent in the State Department; W. A. Harriman having been our unofficial Secretary of State for some years.

Despite his huge salary, Paul Warburg paid little attention to the business of Kuhn, Loeb Company. Instead, he spent much of his time writing and lecturing on the subject of banking reform, and was probably the wealthiest writer on economics we have ever known. He was a member of the secret party on Jekyll Island, Georgia, in November, 1911, where the Aldrich Plan was written. This Plan was later passed by Congress as the Federal Reserve Act of 1913. There is a great deal of documentation on Paul Warburg's activities on behalf of the Act. He spent most of 1913 in Washington, exerting pressure on Congress to pass the Owen-Glass Bill, later called the Federal Reserve Act, which would give international Jewish bankers complete control of the financial resources of the United States. Colonel Edward M. House, the unofficial President of the United States during Woodrow Wilson's two administrations, and international Rothschild agent, wrote in his memoirs, "The Intimate Papers of Colonel House":

—(Continued on Page 3)—

As Commander of the Sixth Army, General Mark Clark called at the White House to report to President Truman on progress of Italian reconstruction in 1946. Accompanying him was his son, Lt. William D. Clark, then an aide to the commandant of West Point.

Flying to Washington from Chicago in 1945, General Mark Clark is shown being greeted by his Jewish mother (Rebecca Ezekial) and his Jewish wife.

## MARK CLARK

—(Continued from Page 1)—

mention the fact that Clark is an "Episcopalian." The gullible public really believes him to be an "Episcopalian."

Bernard Baruch and his brother, the former ambassador to Belgium, were both married in the Episcopalian church. Clarence Dillon (J.APOWSKI) is a Jew who prefers to be known as "Dillon." He, too, was married in the Episcopalian church and by an Episcopalian Bishop.

Are these men Jews—or what?

Or, can this situation be best summed up in the experience of one of our workers? That party, upon asking his Episcopalian Priest (yes, the high Episcopalian church ordains for the priesthood when, upon completion of study the new priest may declare whether or not he prefers to marry) about the RED World Council of Churches, was told: "Well, we will have either Communism, or Catholicism." That short-sighted answer, mind, came from a man of Christ; one ordained a Priest, although not of the Catholic order.

As Catholics and Protestants bicker about the appointment of Mark Clark, the Jews stand on the sidelines and laugh up their sleeves as they think of Jewish world control. This is exactly what the Zionists did after maneuvering the Christians in America into war with the Christians of Germany so that Jews could gain control of the so-called Communist countries; the British Empire, and large portions of Asia. Now, Britain and the other formerly great nations stand trembling, waiting to be taken over by Jewish-directed, brutal Marxism.

As evidence that the Invisible Zionist Government considers Mark Clark a trustworthy operator, readers are reminded of the fact that General Mark Clark's miserable war record, during which time he ordered thousands of Texas boys to needless slaughter in the crossing of the Rapido, resulted in two meetings being held by the officers and men under his command in an effort to have him (Clark) court martialled.

And . . . there stands his record in Austria where he brought in thousands of Jewish-Communist refugees while turning back innumerable Christian persons escaping Communist terror to be tortured by the Soviet Union red army.

Despite his poor record, Clark was moved up over many other generals and put in charge of all land forces which he now commands.

Catholics should not rejoice over this contemplated appointment to the Vatican. Instead, they should ask that a Christian, of unquestionable faith, be sent to the Holy City. Protestant, the ones truly believing in our Lord, Jesus Christ, would likewise be wise to stop battling any other denomination which believes in Him.

Christians—Catholic and Protestant—wake up to what you are doing to Christianity! The Zionist-Marxists compliment you—invite you to lavish dinners—give you important jobs—put your pictures in the paper—contribute to your church—just to make you tolerant and quiet.

How dumb can Christians be?

As the late, unlamented, radical Rabbi S. Wise said, according to the *New York Tribune* of March 2, 1950: "It is the Jew who lies when he swears allegiance to another faith; who becomes a danger to the world."

How dumb can Christians be?

### A COMMUNIST IS A TRAITOR

That any member of the Communist Party can be anything other than a traitor to the American Republic, is best proven by the Communist Oath. It reads:

"I now take my place in the ranks of the Communist party, and the Party of the working class. I take this solemn oath to give the best that is in me to the service of my class. I pledge myself to spare no effort in uniting the workers in militant struggle. . . . I pledge myself to work unsparingly in the unions, in the shops, among the unemployed. . . . I pledge myself to rally the masses to defend the Soviet Union. . . . I pledge myself to remain at all times a vigilant and firm defender of the Leninist line of the Party, the only line that insures the triumph of Soviet Power in the United States."

—From "The Communist Party Manual on Organization" (Page 105).

If America is to defend herself and maintain the Republic, the Communist Party should be outlawed and all of its members deported at once, or placed in prison.

# WARBURGS

—(Continued from Page 1)—

"December 19, 1912. I talked with Paul Warburg over the telephone, regarding currency reform. I told him of my trip to Washington and what I had done there to get it in working order. I told him that the Senate and the Congressmen seemed anxious to do what he desired, and that President-elect Wilson thought straight concerning the issue.

"March 13, 1913. Paul Warburg and I had an intimate discussion regarding currency reform.

"October 13, 1913. Paul Warburg was my first caller today. He came to discuss the currency measure. There are many features of the Owen-Glass bill that he does not approve. I promised to put him in touch with William McAdoo and Senator Owen, so that he might discuss it with them.

"November 27, 1913. Paul Warburg telephoned about his trip to Washington. Later, he and Jacob Schiff came over for a few minutes. Warburg did most of the talking. He had a new suggestion in regard to grouping the regular reserve banks so as to get the units welded together and in easier touch with the Federal Reserve Board."

House's memoirs also include the following sentence, "President Wilson accepted House's suggestion of Paul Warburg of New York for the Federal Reserve Board because of Warburg's interest and experience in currency problems under both Republican and Democratic administrations." (Jewish bankers are always above party politics, and support the Republican and Democratic parties simultaneously, contributing to both because they wish to keep up the appearance of a popular government. The only party which the Jews really support and believe in is the Communist Party.)

The Federal Reserve Act was important enough to take up Paul Warburg's time for eleven years because it created a Central Bank of the United States, owned by private stockholders. This stock, capitalized at \$143,000,000 in 1914, was reported by the Treasury Department in 1947 to be worth forty-five billion dollars. It was worth his efforts to enact the banking and currency bill. More important, the principal job of a central bank is war finance. The First World War began a few months after the Federal Reserve System was set up. Without the mobilization of credit which the System afforded, European nations could not have engaged in the World War, because they fought on American money.

Colonel Ely Garrison, in "Roosevelt, Wilson, and the Federal Reserve Act," wrote that, "Paul Warburg is the man who got the Federal Reserve Act together, after the Aldrich Plan aroused such nationwide resentment and opposition. The mastermind of both plans was Baron Alfred Rothschild of London."

Woodrow Wilson named Paul Warburg the first Governor of the Federal Reserve Board. Warburg wished to set the Federal Reserve System up the way he wanted it, but despite the fact that he dictated to the government of the United States, he was not quite so popular with the people. Many editors and writers objected to Wilson's handing the monetary system of our country over to an international Jewish banker, although he was merely fulfilling his promises to his Jewish backers. The public outcry forced the Senate to make a token investigation of Warburg, and he was asked to appear before a Senate Subcommittee in June of 1914 and answer some questions about his international banking connections and his activities in getting the Federal Reserve Act through Congress. Warburg refused to appear, because he did not dare risk public denunciation as a Rothschild agent.

The Nation, on July 23, 1914, observed that "Mr. Warburg finally had a conference with Senator O'Gorman and agreed to meet the members of the Senate Subcommittee informally, with a view to coming to an understanding and to giving them any reasonable information that they might desire. The opinion in Washington is that Mr. Warburg's confirmation is assured." The Nation was correct. The Senate confirmed Mr. Warburg as the first Governor of the Federal Reserve System, after an informal meeting at which no minutes were taken and no public statements made. Mr. Warburg was very eager to leave his five hundred thousand dollars a year at Kuhn, Loeb Co. for a salary of twelve thousand a year with the System, an instance of his devotion to public service.

Warburg was now the most powerful banking figure in his adopted land (he had been naturalized in 1911, but he never lost his thick accent), and he proceeded to mortgage this country to pay the costs of the Allies in the First World War. His older brother, Max Moritz Warburg, was the chief financial agent of the Kaiser and head of the German Secret Service (international

espionage was perfected by the Rothschilds during the nineteenth century). We had the amusing situation of Paul Warburg in charge of American finance while brother Max was in charge of German finance, at a time when the two nations were at war with each other, but such things never seem to bother international bankers. Numerous charges were made against Paul Warburg regarding his brother's position. He resigned in May, 1917, after we had been at war for more than a year. The New York Times stated that he had left public service because of criticism arising from the fact that his brother was in the Swiss Secret Service. The U. S. Naval Secret Service Report of December 12, 1918, is as follows:

"WARBURG, PAUL: German, naturalized American citizen 1911, was decorated by the Kaiser 1912, was chairman of the Federal Reserve Board, handled large sums furnished by German bankers (M. M. Warburg & Co.) for Lenin and Trotsky. Has a brother who is leader of the espionage system of Germany."

Paul Warburg continued to dominate the Federal Reserve System as President of the Federal Advisory Council, a group of bankers which met with the Board and passed on all of its decisions. His place on the Board of Governors was taken by Albert Strauss, partner in the international banking house of J & W Seligman. We were fortunate to secure the services of so many experienced bankers for the low-paying position of Governor of the Federal Reserve Board.

The nation's largest owners of railroads, Kuhn, Loeb Co., protected its interests by ordering Woodrow Wilson to set up a United States Railroad Administration during the First World War. Wilson appointed as Director-General his son-in-law, William McAdoo. President of the Kuhn, Loeb owned Hudson & Manhattan Railroad. In 1918, Warburg designed a more efficient organization, which he called the Federal Transportation Council.

On the 18th of May, 1920, Paul Warburg and Albert Strauss met with the Federal Reserve Board and raised the rate on agricultural paper to 7%, which caused the Agricultural Depression of 1920-21 and wiped out twenty billions of dollars in land and farming values. Farmers had made money during the war, and the government encouraged them to overextend their credit. When Warburg raised the rate, the banks called the loans in and ruined our farmers.

Paul Warburg also exercised considerable influence on the Federal Reserve Board as President of the American Acceptance Council. Acceptances, the currency of international trade, had not been used widely in this country before the First World War. Paul Warburg set up in 1920 the International Acceptance Bank, the largest acceptance bank in the world, handling acceptances for seventy-one per cent of our foreign trade in 1928. His brother Felix was vice-president, his son James Paul Warburg was a director. Paul Warburg was also a director of the Westinghouse Acceptance Bank. At the second annual convention of the American Acceptance Council on Dec. 2, 1920, President Warburg said, "It is a great satisfaction to report that during the year under review it was possible for the American Acceptance Council to further develop and strengthen its relations with the Federal Reserve Board."

During the 1920s, Paul Warburg organized the international dye trust I. G. Farben, setting up the American branch as American I. G. Chemical Corporation in partnership with Walter C. Teagle of Standard Oil. (This writer in years of study and research on economic problems has never found an international trust which did not have at its source Jews and Jewish bankers.) Warburg also set up the Agfa Ansco Film trust. Who's Who in American Jewry in 1928 listed Paul Warburg as director of the following corporations: Union Pacific Railroad and subsidiaries, Baltimore & Ohio RR, National Railways of Mexico, Western Union, Wells Fargo, American I. G. Chemical, Agfa Ansco, Westinghouse Electric & Manufacturing Corp., Chairman of the Board of the International Acceptance Bank, Warburg Company of Amsterdam, Farmers & Merchants Bank of London, and many other banks, railways, and factories.

In 1927, Paul Warburg met with the heads of the European Central Banks to discuss putting Europe back on the gold standard. Five hundred million dollars in gold was withdrawn from New York, precipitating the Great Depression of 1929-31.

Paul Warburg was the guiding personage behind the Council on Foreign Relations, which dictates United States foreign policy in the interests of international Jewry. His son, James Paul Warburg, is its present leader. Paul Warburg died in 1932, leaving a fortune officially reported at seventy-five million dollars, and actually much more than that, all of it made in this country.

His brother Felix Warburg was for many years the chief financial backer of the Zionist Organization of

America, and was a close friend of its President, Justice Louis Brandeis of the U. S. Supreme Court, and his understudy, Justice Felix Frankfurter. Felix Warburg was a director of the Palestine Economic Corporation, the National Railways of Mexico, the Prussian Life Insurance Co. of Berlin, Staten Island Rapid Transit Co., and many other banks and corporations. His son, Edward M. M. Warburg, is a director of the Jewish Telegraph Agency, head of the Displaced Persons Division and political advisor to Supreme Headquarters of the Allied Expeditionary Forces under General Eisenhower. Edward had previously been a special coordinator of information in Washington. Felix' other son, Frederick M. Warburg, helped Senator Herbert Lehman organize the giant holding company the Lehman Corporation, which profited so greatly from the Crash of 1929, was a member of Kuhn, Loeb, and Lehman Brothers, is now a director of the Boy Scouts of America. His cousin, John Schiff, of Kuhn, Loeb, is President of the Boy Scouts of America.

Otto Warburg, cousin of Paul and Felix, was President of the World Zionist Organization. Their brother Max, chief financial agent of the Kaiser, was head of the Financial Commission of the German Delegation to the Peace Conference, while his nephew, James Paul Warburg, represented the U. S. Treasury. Max continued to exercise considerable influence in the Nazi regime. George Sokolsky, in his book "We Jews," points out that "Even in Hitler Germany the firm of Max Warburg was exempted from persecution." The Warburg firm of I. G. Farben was not harmed by Allied bombing and is today the richest corporation in Germany.

James Paul Warburg, son of Paul, was born in Hamburg, Germany, was selected by Franklin D. Roosevelt as his Director of the Budget in 1933, but resigned to accompany Kuhn, Loeb Lawyer Henry Stimson, then Secretary of State, to the World Economic and Monetary Conference in London in June of 1933, where the Second World War was planned. Members of the two Rothschild agencies, the Council on Foreign Affairs and the Royal Institute of Foreign Affairs in London, decided how much of Hitler's announced program they would help him carry out before starting the war. Mrs. Ludendorf testified that James Paul Warburg lent Hitler \$34,000,000 to carry out his plans. In 1941 James Paul Warburg organized the Office of War Information, official United States propaganda agency, which concealed from American soldiers the fact that they were dying for international Jewry's planned program of world conquest for Zionism. James Paul Warburg was the London director of the OWI from 1942-44, and dictated the pro-English policies of General Eisenhower. He is a director of Nederlandsche Credieten Financiering Maatschappij, President of the International Manhattan Co., Polaroid Corp., and controls the Bank of Manhattan. As the head of the Council on Foreign Relations, he controls the State Department.

The Schiff-Loeb-Warburg union is the ruling family of the United States. Their personal assets are conservatively estimated at two and a half billion dollars. Since the Warburgs arrived in this country, we have had three major depressions and two World Wars, and they played an active part in bringing on each of these disasters. The Third World War seems destined to bring true their insane dream of world conquest, and the American people are helpless to avert the approaching calamity. Jews have found democracy an ideal system of government for their sinister purposes. If we continue to let them lead us, we can expect nothing but destruction.

—Eustace Mullins

## ANTI-COMMUNISTS ARE CALLED ANTI-SEMITES

Jews in this country frequently "sound off" with a great deal of senseless drivel about "anti-Semitism," as if it were something bad.

Anyone who exposes Communism is branded an anti-Semite, doubtless because, as competent authorities point out, "the Communist Party in the U.S. is more than 90% Jewish." Gentile "fronts" are used wherever possible. There are Gentiles today, as in Bible Times, who become "Jewish proselytes," mouthpieces for corrupting Gentiles with anti-Christian philosophies.

Any effective opposition to Communism is branded anti-Semitism. A few of the men who have been thus branded are Senator Joseph McCarthy; J. Edgar Hoover, head of the F.B.I.; and General Douglas MacArthur.

The Jews use the term, "anti-Semitism," as a syno-

—(Continued on Page 4)—

—(Continued from Page 3)—

nym for "anti-Communism." Anti-Communism is also called "McCarthyism." Thus, anti-Semitism, anti-Communism, and McCarthyism, all mean the same thing in Yiddish parlance. They mean opposition to Communism.

A sense of "guilt" causes the term, "anti-Communism," to stick in the craws of the Jews, so they call it, "anti-Semitism." If exposing Jewish treason is "anti-Semitism," then let's have more of it—much of it, in fact. Christ openly exposed Jewish treachery, treason, and hypocrisy and thus became history's Number One Anti-Semite. Christ was crucified for His alleged anti-Semitism.

The Jewish attitude toward Christianity has not changed in 1900 years. For example, the *American Hebrew*, March 1, 1946, says—

"American Jews too must come to grips with our contemporary anti-Semites. We must fill our jails with anti-Semitic gangsters, we must fill our insane asylums with anti-Semitic lunatics, we must combat every alien Jew-hater, we must harass and prosecute our Jew baiters."

That, ladies and gentlemen, is the Jewish formula for dealing with Christians and anti-Communists. The above quotation is from Rabbi Leon Spitz. We have never seen any more concentrated hate packed into one paragraph. These are the people who accuse others of "hatred" and "prejudice." They, themselves are bristling with it. No wonder Christ said of them, as He would today if He were here—

"Thou hypocrite, first cast out the beam out of thine own eye; and then shalt thou see clearly to cast out the mote out of thy brother's eye (Matt. 7:5).

Frank Britton in his book, "Atom Treason," calls attention to the fact that there were nine Jews in the Fuchs Atom Spy Ring—the group that gave our atomic bomb secrets to Soviet Russia. Britton says further, "The Fuchs ring was not the only one passing atom secrets to Russia, nor has spying ceased with its break-up. The unhappy truth is that our Atomic Energy Commission is so infested with Marxist-Jews that it may prove next to impossible to root them out in time to prevent an atomic version of Pearl Harbor. In every case of espionage uncovered thus far the trail has led straight back to our closely guarded laboratories at Oak Ridge, Los Alamos, and Princeton, and in every single instance a highly placed Jew at one of these installations has been involved. And the story is only partly told. . . ."

The Jews would like to suppress this kind of information. Therefore they brand our genuine American patriots "anti-Semites" because these patriots will not stand silently by and permit traitors to destroy our country.

Therefore, to be called an "anti-Semite" is to be highly complimented on your loyalty to the American form of government and to the Lord Jesus Christ.

Let's "educate" the public to the real meaning of the term, "anti-Semitism," and expose the treachery and treason of those who call patriots by that name.

For twenty years I have investigated the philosophies of the Jews who call Gentiles "anti-Semites," and in each instance—without a single exception—I have found such Jews to be either Communists or ultra-pro-

Communists. Therefore, the Jew who brands you an "anti-Semite" is advertising the FACT that he is a "Red." If the F.B.I. would investigate those who brand patriots as anti-Semites, the F.B.I. would find a lot of Communists.

#### ANTI-SEMITISM IN ISRAEL

In touring Palestine I found that the Jews nourished a vitriolic hatred toward the Arabs. The Arabs are "Semites." Jewish hatred of the Arabs constitutes an "anti-Semitism" unequalled by any other people anywhere in the world. Jews who call Gentiles "anti-Semites" are themselves by far the worst anti-Semites of all. Nobody hates anyone else more than a Jew hates his half-brother Arab. The Jews are more than well-plastered with the mud they are throwing at others. If anti-Semitism is "outlawed," every Jew in the country could immediately be incarnated because of his hatred for his Semitic half-brother—the Arab.

## SANTA CLAUS GOVERNMENT

By DEWITT EMERY

(Editor's Note: DeWitt Emery is president of the National Small Business Men's Association.)

The bureaucrats and new deal politicians have had a hard time peddling socialism to the American people. They never dared to call it by its right name, and they had to take it apart and sell the pieces one by one. Even then it took a series of tailor-made "emergencies" to get Americans to buy it piece by piece.

When you put all the pieces together you have socialism. And if you don't believe it, go down to Washington and count the bureaucrats, or add up the national debt, or take another look at your tax bill. Or better yet, re-read the Constitution and see how far we have come from the principles expressed in it.

Some of us have chosen to fight this socialistic trend with every means at our disposal. There are others who will simply try to live with it. That's what the socialist plotters are counting on. Their most powerful weapon is the indifference of the American people.

For this group, those who would rather live with socialism than fight it, there appeared a book recently that will make it easier. It's called "How to Get It From the Government." The author's name is Stacy Jones. It's a guide to life in a socialist America, and it's one of the clearest signs of the road we are traveling I've seen in a long time. The publishers have issued it in a paper binding and priced it so that anyone can afford to buy a copy. The book begins:

"The Federal Government has something to offer everybody, from the cradle, at which mother may use a booklet on Infant Care, to the grave, which may be in a national cemetery." The rest of the book tells you, in simple language, how to get yours. If you want a pension, an unemployment dole, a job, a loan, a piece of farm land, the date of your great-grandfather's wedding, an education, a recipe for strawberry jam, a vacation spot, a customer for your goods or services, or a conducted tour of the capitol city, the government can provide it. The booklet tells you exactly how to manage it—where to apply, what forms to get, how best to deal with the bureaucrat through whom these various handouts are administered.

This is the formula for success in the new era—"Get it from the government." It may take Americans a while to get accustomed to it. It used to be that personal success depended on ambition, inventiveness, thrift and hard work. Now all you need is a pad of paper, pen or pencil and a manual to guide you through the bureaucracy. The government will take care of you.

What is the price for all this?

The author says:

"These federal benefits aren't charity of course; we pay for them in taxes or in depreciation of our dollars, and we could stop them at any time. In our role as taxpayers, we demand economy, but in our role as beneficiaries we insist that the ax fall somewhere else. The result is that it usually doesn't fall anywhere; once they're established, pensions and similar gratifications are seldom curtailed. It is unlikely that even a change of administration will effect any permanent cut."

It would be hard to state the American dilemma clearer than this. Each of the pieces of socialism that we have accumulated in the last 20 years was represented as a benefit to some special group. Once the law was on the books, someone had to pay the bill. If it couldn't all be paid in taxes, the government would simply operate in the red for a while, printing as much money as it needed. Each phony dollar diluted the value of the good ones. One way or another, we're paying the bills, if not in taxes, then with the part of our

savings that inflation eats away. But complaining about high taxes and rotten dollars is not the way to stop the march of socialism and big government.

For what the government spends is not determined by what it gets but by what it does. The way to stop it is by cutting functions, by rejecting the socialist idea of "getting it from the government." As long as Americans continue to run to Washington for handouts, the government will grow. You won't stop big government by cutting taxes.

Of course, there's another way. You can take your handbook and your writing paraphernalia (the bureaucrats prefer typewritten requests) and see how much you can get from the government. Maybe you can keep ahead of the game.

This is a sure-fire way to assure the socialists a victory in the United States. The only winner in the race to Washington for handouts is the bureaucrat. There are more than two million of them now, and if the people continue to depend on Santa Claus government for the things they want, there will be many more. And their power over our lives is increasing all the time.

It's time to take a stand. If you have decided to live with socialism, I suggest you get a copy of "How to Get It From the Government" and start getting yours. If you have decided to fight it, I suggest you write to your congressman demanding a stop to the handout state, to special privileges, to this idea of mail-order government that is bound to destroy us, our form of government, and our traditional liberties.

(This is republished from release of Mr. Emery's column.)

## TWO KINDS OF SOCIALISM

To almost everyone, socialism means that the government owns and operates all the means of production, transportation, communication and so on. That's one kind of socialism, all right, but there's another type which is just as oppressive—socialization of income. There is more of this kind of socialism in America than in socialist Britain.

In Great Britain in 1950 national taxes averaged \$181.00 for every man, woman and child in the country.

In the United States in 1950 federal taxes averaged \$261.00 for every man, woman and child in the country.

Dollar for dollar, much more income is socialized in America than in socialist Britain.

National Small Business Men's Association, Evanston, Illinois.

## LETTERS TO THE EDITOR

Dear Mr. McGinley:

Enclosed herewith is \$2.00 towards the printing press. Keep it rolling and see that our Senators and Representatives get on the ball and wise up how our good old U. S. is being sold down the river.

—P. A. W., Penna.

Union Patriotic Press:

I enclose money order for \$3.00 representing my contribution to your Press Fund. May God bless you and give you success in your undertakings and raise up patriots with courage, faith and determination as great as your own to help in saving our beloved and imperiled America.

—J. M. M., California

Editor—Common Sense:

I am enclosing money order for \$2.00 towards the Press Fund. How I wish it could be more. It is small, but a sacrifice from me and mine.

What I cannot understand is why people do not realize the great work you are doing. I know that you and your volunteers have given everything. I know that if the Marxists get control—and they may in a year or so—your head will roll in the gutter. I can only hope that all the stupid, selfish slackers will also suffer.

You are a great Christian, Mr. McGinley, and I am sure you will not like the expression, but I can have no sympathy for the dumb Christians who are letting you fight this battle unaided. They will deserve every hardship they must suffer. A few of us, at least, will be able to face Him with clear hearts.

May Christ be with you always.

—K. T. D., New Jersey

## CORRECTION!

In our five-star issue, No. 148, dated October 15, 1951, the article CONSPIRACY! REMEMBER! in column two, stated that "Brandeis placed himself on the Supreme Court bench by blackmailing President Truman with the 'Peck' letters." This should have read: "Brandeis . . . President Wilson," for it was Wilson who was in office at that time.
